Measures for the relief of distress in the Kolar District

From The Revenue Commr Mysore

No. D 3/23-24 Dated 28.12.23 Received 29.12.23

Diary No. 93	Enclos. 13	Spare Copies. —	Serial No. 54

BRIEF ABSTRACT OF LETTER.

Forwards with his recommendations letter from the D.C. Kolar dist requesting sanction of Rs 5 to the proposal connected with the restoration of the Sidlaghatta tank, Gowribidnur taluk.

NOTES AND ORDERS.

Submit for order.

2 The question falls under para 4 of G.O no 49-68/D dated 26.12.23. and the Chief Engr for Irrigation may perhaps be requested to include it in the list programme refd to

NOTES—First Sheet.

in the last para thereof.

3 In view of the above Rly 31/12/23 Rly Secy 31/12/23

4 Put up the proposal for fixing the rate of contribution as regards feeder channels

Rly 2/1 2.1.24

5 There seem to be no G.O.s specially fixing the rate of contribution by ryots for feeder channels.

6 Kind reference is invited to the definition of the word "tank" (sec 2 of the Tank Panchayet Regn. I of 1911), which includes also a "feeder channel". The same amount of contribution levied from the ryots in respect of the restoration of tanks will perhaps be collected for restoration of feeder channels.

7 In respect of minor tanks, the contribution was 1/3 & it has been changed to one-fourth in the amended Minor Tank Restoration Regulation XV of 1923.

2. 14 Reference is invited to Articles 379 & 380 of the Mysore Revenue Manual from which it will be seen that there are no definite amounts fixed for contribution in regard to major tanks, feeders, &c. As such, the contribution now agreed to by the ryots, viz., one-third of the cost has to be taken as voluntary, and in the case of this work may be accepted.

WD 0561-GPB—3750—1-8-22

Letter No.B.6925 dated 5th January 1924 from the Chief Engineer of Mysore, to the Revenue Commissioner in Mysore, Bangalore.

With reference to your letter No.D.3/2324 dated 24th December 1923 forwarding through me to the Secretary to Government, Revenue Department project for restoring Vichakurhalli Tank and opening a feeder to it etc., I have the honour to state that during my last inspection of these affected parts I went into the questions of all possible works that could be taken up with advantage to afford relief. In my opinion this project can only be recommended as a Famine Work to be taken up only if there is no other suitable work in the locality. There are other suitable projects in the locality and the order in which these works may be taken up is as shown below:-

1. Feeder to Gangasandra Tank, Goribidnur Taluk.- Estimate under submission to Government.
2. Feeder to Hosur Kannikere Tank.- Estimate under preparation.
3. Feeder to Kadalveni Tank off feeder to Marlur Tank.- Estimate under preparation
4. Feeder to Gadre Tank.- Estimate under preparation
5. Feeder to Jeelakunte Tank.- Estimate ready.
6. Feeder to Vichakurhalli Tank.- and its restoration. Estimate ready.

I have written to the Executive Engineer, Kolar Division to get up estimates for 2, 3 and 4 and submit to me for scrutiny and obtaining sanction of Government.

GENL. & REV. SECT. D Br. 29 DEC. 1923 G. D. SECTION

To

K. Chandy, Esq., B.A.,
Revenue Commissioner in Mysore, Bangalore.

Sir,

I have the honor to forward herewith the papers connected with the restoration of the feeder ~~channel~~ to Jeelakunte tank, Goribidnur Taluk, received from the Executive Engineer, Kolar, with his No:244 dated 28-11-23 copy of which is enclosed for information.

The ryots have agreed by a mutchalika to contribute 1/3rd of the cost towards the project, amounting to Rs 1047.

I request that sanction of Government may kindly be obtained very early to the project and arrangements made to provide funds therefor. Sanction may kindly be obtained to treat the ryots' contribution of Rs 1047 as loan. The project is intended to provide work in a distress area.

The mutchalika has been given before the Executive Engineer, the Amildar will now be asked to take a fresh mutchalika

in

in proper form.

I have the honor to be,
. S i r,
Your most obedient servant,

For Deputy Commissioner,
Kolar District.

such cases shd be dealt with.
26/11/23 RC.

Letter No:244 dated 28-11-23 from the Executive Engineer Kolar, to the Deputy Commissioner, Kolar District.

SUBJECT:- Public works proposed to be taken up to afford relief in the affected parts of Goribidnur Taluk.

In the light of para5 of the Revenue Commissioner's letter No:C.147/23-24 dated 18/19-11-23 to the Chief Engineer of Mysore, for Irrigation, I hawe the honor to forward herewith the papers connected with restoring the feeder to the Jeelakunte tank registered No:140 of Goribidnur Taluk for necessary further action by you.

A combined project for restoring the anicut across Watadahosahalli weir halla and the feeder to the Jeelakunte tank for Rs 1603 and Rs 3140 respectively had been sent up for for sanction. The Government sanctioned the estimate for Rs 1603 only for the anicut work as that was more urgent as it concerned the Madras Government also. This work is under execution. Asregards the restoration of the feeder channel the Jeelakunte tank now under consideration the Engineer in a copy of which is enclosed, deals with the subject in detail

The feeder channel when restored will not only ensure the present revenue under the tank and channel butwill also increas the present revenue by Rs 80 which itself will be about 4% on the Government share of cost.

The ryots have promised to pay 1/3rd contribution as can be seen from the Mutchalika in the file. This comes to Rs 1/3 x 3140 or Rs 1047.

The question of the recovery of contribution from the ryots may be settled in your department, the papers countersigned, and forwarded through the Revenue Commissioner for obtaining Chief Engineer's sanction to the project.
